ITEM #2: 2008-2009 budget workshop  
→ Dennis Rozum reviewed the 2008-2009 budget with the Board. Most line items will rise only minimally and are due to increased in salary expenditures and rises in the cost of metals and petroleum supplies.  
→ Robert Pagliaro made the recommendation to review a breakdown of spending by line item during the previous year to aid in making more accurate adjustments and projections during the annual budget process. Rozum will look into this suggestion.  
→ Rozum reported that he has looked into using a liquid pre-treatment similar to the one currently being used in New Milford in portions of Seymour as soon as next year. New Milford Public Works speaks highly of the product and no major modifications are required of the trucks.  
→ Sean Walsh asked about the possibility of having a permanent extra employees stationed at the transfer station on Saturdays for safety reasons. Rozum will analyze the cost of a permanent second man.  
→ The Board then debated how to best update the vehicle fleet over the next few years. The Board consensus was to replace the two older GMC trucks. A medium duty truck on a Chevy chassis is a possibility.
